## Independent Auditor's Report

Board of Directors  
National Public Gas Agency  
Lincoln, Nebraska

### ***Opinion***

We have audited the financial statements of National Public Gas Agency, as of and for the years ended March 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise National Public Gas Agency's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of National Public Gas Agency as of March 31, 2022 and 2021, and the changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of National Public Gas Agency and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about National Public Gas Agency's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from

fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of National Public Gas Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about National Public Gas Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis on the following pages summarizes the financial highlights and focuses on factors that had a material effect on the financial condition of National Public Gas Agency (NPGA) and the results of operations for the years ended March 31, 2022, 2021 and 2020. This discussion should be read in conjunction with the accompanying financial highlights, the basic financial statements and notes to the financial statements.

### ***Financial Report Overview***

The financial statements, related notes to the financial statements and management's discussion and analysis provide information about NPGA's financial position and activities.

**Management's Discussion and Analysis** – provides an objective and easily readable analysis of the financial activities of NPGA based on currently known facts, decisions or conditions.

**Balance Sheets** – provide a summary of NPGA's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position.

**Statements of Revenues, Expenses and Changes in Net Position** – present the operating results of NPGA into various categories of operating revenues and expenses, and non-operating revenues.

**Statements of Cash Flows** – report the cash provided by and used for operating activities, as well as other cash sources such as investment return.

**Notes to the Financial Statements** – provide additional disclosures and information that is essential to a full understanding of the data provided in the statements.

### ***Financial Analysis***

The following comparative condensed financial statements summarize NPGA's financial position and operating results for the years ended March 31, 2022, 2021 and 2020.

### **Condensed Balance Sheets and Financial Highlights**

	March 31,			Change	
	2022	2021	2020	From 2021 to 2022	From 2020 to 2021
Current assets	\$ 4,218,193	\$ 5,681,787	\$ 3,586,235	\$ (1,463,594)	\$ 2,095,552
Noncurrent assets	2,885,000	324,273	-	2,560,727	324,273
Deferred outflows of resources	-	-	188,000	-	(188,000)
Total assets and deferred outflows of resources	\$ 7,103,193	\$ 6,006,060	\$ 3,774,235	\$ 1,097,133	\$ 2,231,825
Current liabilities	\$ 1,335,784	\$ 3,051,580	\$ 685,835	\$ (1,715,796)	\$ 2,365,745
Noncurrent liabilities	-	-	188,000	-	(188,000)
Deferred inflows of resources	2,885,000	74,000	-	2,811,000	74,000
Net position - unrestricted	2,882,409	2,880,480	2,900,400	1,929	(19,920)
Total liabilities, deferred inflows of resources and net position	\$ 7,103,193	\$ 6,006,060	\$ 3,774,235	\$ 1,097,133	\$ 2,231,825

Current assets decreased in 2022 due to a decrease in cash and cash equivalents, short-term investments, and accounts receivable. Although accounts receivable decreased in 2022, the balance is higher than in recent years due to the rising cost of natural gas. Accounts receivable had increased in 2021 due to additional volumes and higher natural gas prices related to Winter storm Uri in February 2021.

Noncurrent assets are impacted by the volume of and changes in the fair value of derivative instruments. The fair value of derivative instruments was positive in 2022 and 2021 resulting in a noncurrent asset. NPGA has greater volumes of derivative instruments, and the rising cost of natural gas has increased the fair value of NPGA's derivative instruments in 2022. Noncurrent assets are also impacted by the maturity in years of the investment portfolio. NPGA does not have long-term investments in 2022. Noncurrent assets also increased in 2021 as NPGA moved more funds into the investment portfolio resulting in a balance in long-term investments.

Deferred outflows of resources and noncurrent liabilities fluctuate annually as a result of the volume of and changes in the fair value of derivative instruments. The deferred outflows of resources and noncurrent liabilities in 2020 result from the negative fair value of cash flow hedges.

The change in current liabilities relates to natural gas prices and volumes purchased to meet needs of members and customers resulting in fluctuations in accounts payable. Although accounts payable decreased in 2022, the balance is higher than in recent years due to the rising cost of natural gas. Accounts payable had increased in 2021 due to the increase in natural gas prices related to Winter storm Uri in February 2021.

Deferred inflows of resources also fluctuate annually as a result of the volume of and changes in the fair value of derivative instruments. The deferred inflows of resources in 2022 and 2021 result from the positive fair value of cash flow hedges.

### **Condensed Statements of Revenues, Expenses and Changes in Net Position and Financial Highlights**

	March 31,			Change	
	2022	2021	2020	From 2021 to 2022	From 2020 to 2021
Sales volumes (MMBtu)	2,487,733	2,500,258	2,315,035	(12,525)	185,223
Operating revenues	\$ 8,770,029	\$ 8,498,131	\$ 5,001,443	\$ 271,898	\$ 3,496,688
Operating expenses	8,773,753	8,532,142	5,052,177	241,611	3,479,965
Operating loss	(3,724)	(34,011)	(50,734)	30,287	16,723
Investment return	5,653	14,091	48,844	(8,438)	(34,753)
Change in net position	\$ 1,929	\$ (19,920)	\$ (1,890)	\$ 21,849	\$ (18,030)

The fluctuation in sales volumes results from changes in demand primarily driven by weather conditions and changes in contracts with customers. One community converted from a customer contract to a member in 2021.

The increase in operating revenues and operating expenses in 2022 related to higher average natural gas prices compared to 2021. A portion of the increase in operating revenues and operating expenses in 2021 related to increased demand and higher average natural gas prices compared to 2020. The majority of the increase in operating revenues and operating expenses in 2021 resulted from the increase in demand and drastic increase in natural gas prices during Winter storm Uri in February 2021.

Fluctuations in investment return relate to fluctuations in interest rates and funds invested each fiscal year impacting annual investment return.

### ***General Trends and Significant Events***

In February 2021, Winter storm Uri brought prolonged frigid temperatures to the midwestern United States. These prolonged frigid temperatures created a significant increase in natural gas demand while also posing some operating challenges to production facilities and certain pipelines. Ten NPGA members experienced a significant increase in the February cost of gas which increased NPGA's 2021 operating revenues and operating expenses. NPGA worked with the gas suppliers to extend payment terms, without interest, to give the impacted members more time to remit payment to NPGA. The extended payment terms resulted in increased accounts receivable and accounts payable in 2021. The impacted members remitted full payment to NPGA by May 2021 allowing NPGA to provide full payment to the gas suppliers in May 2021.

Despite the highly elevated pricing seen for supplemental gas needs for several days during Winter Storm Uri in February 2021, First of Month pricing for March 2021 returned to pre-storm levels but gradually rose over the course of 2021 until rather dramatic market hikes started occurring during the fall and continuing into spring 2022. Market signals were already sending a lot of uncertainty into the market and were only exacerbated by the Russian invasion of Ukraine in late February 2022. Ultimately year-over-year natural gas prices would rise approximately 59% with tremendous volatility occurring in the day-to-day market and even intra-day market. Even in an elevated pricing environment, production struggles to keep pace with demand as equipment and manpower are slow to return to the field, showing a high degree of financial discipline. The Energy Information Agency's (EIA) outlook as of March 2022 calls for a modest increase in daily production by the end of 2022. According to the EIA natural gas inventory report for March 25, 2022, total working gas in storage is below the five-year historical range. Weather continues to play a huge role in driving up the market as a hot and dry summer is predicted putting pressure on summer storage levels with summer pricing forwards currently rivaling or exceeding winter pricing. Further driving up demand, in 2021, EIA also reported that U.S. natural gas exports set a record high for the seventh consecutive year and are projected to increase further in the future partially driven by increases in Liquefied Natural Gas capacity at facilities that are currently under construction in Louisiana and Texas. At fiscal year-end, the NYMEX forward curve was rising sharply. April 2022 closed at \$4.56/MMBtu but the remainder of fiscal 2022 averages \$7.44 per MMBtu.

### ***Risk Management Practices***

NPGA is subject to various risks inherent in the natural gas business, including market risk, operating risk, regulatory and political risks, credit risk and interest risk.

Natural gas prepay transactions and other long-term commitments provide a means in which NPGA may purchase gas at an expected discount from the market.

NPGA has entered into natural gas supply contracts as part of projects to obtain long-term supplies of natural gas, at a discount, pursuant to prepaid natural gas purchase and sale agreements. The contract term is generally the earlier of 30 years or an early termination date defined per the terms of the agreement. NPGA has gas supply contracts with a joint action agency to purchase a daily contracted quantity at a set discount. The first contract is from February 2020 through August 2026 and the second is from April 2022

through November 2028. NPGA has a gas supply contract with a natural gas acquisition authority to purchase a daily contracted quantity at a set discount from April 2019 through November 2024. NPGA's continued participation in the gas supply contracts through the remaining contract periods, is subject to the ability of each respective organization to supply gas at a minimum discount during each defined reset period.

NPGA has entered into a natural gas production sharing agreement with a nonprofit corporation. The agreement is supported by related agreements with specific members of NPGA who chose to participate and agreed to take delivery of natural gas provided under the natural gas production sharing agreement.

NPGA also utilizes natural gas commodity swap transactions to manage risks associated with natural gas markets. NPGA's commodity swaps outstanding as of March 31, 2022 have effective dates beginning in May 2022 and extending through March 2024.

NPGA will continue to evaluate hedging opportunities, natural gas prepay transactions and other short-term and long-term commitments to manage forward exposure to commodity price risk for members and customers.

### ***Report Purpose and Contact Information***

This financial report is designed to provide member municipalities, other customers and counterparties with a general overview of NPGA's financial status for the fiscal years 2022, 2021 and 2020. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance and Accounting at 8377 Glynoaks Dr., Lincoln, Nebraska 68516.

# **National Public Gas Agency**

## **Notes to Financial Statements**

### **March 31, 2022 and 2021**

#### **Note 1: Nature of Operations and Summary of Significant Accounting Policies**

##### ***Nature of Operations***

National Public Gas Agency (“NPGA” or “Agency”) was established under provisions of the Interlocal Cooperation Act of Nebraska (Act) for the purpose of providing local governments the opportunity to cooperate with other localities to obtain a mutual advantage in the ability of the entity to meet its gas supply needs. NPGA sells gas to its members in the states of Nebraska, Colorado and Kansas. NPGA also sells gas to other local governments in the states of Colorado, Kansas, Oklahoma, and Wyoming.

##### ***Reporting Entity***

In evaluating how to define the Agency, for financial reporting purposes, management has considered all potential component units for which financial accountability may exist. The determination of financial accountability includes consideration of a number of criteria, including: (1) the Agency’s ability to appoint a voting majority of another entity’s governing body and to impose its will on that entity, (2) the potential for that entity to provide specific financial benefits to or impose specific financial burdens on the Agency and (3) the entity’s fiscal dependency on the Agency.

NPGA, Nebraska Municipal Power Pool (NMPP), Municipal Energy Agency of Nebraska (MEAN) and Public Alliance for Community Energy (ACE), comprise a coalition referred to by the trade name NMPP Energy. This coalition of entities provides energy-related services to member and nonmember participants while sharing facilities and management personnel. None of the organizations included in NMPP Energy are responsible for the obligations, liabilities or debts of any of the other organizations in the coalition. Based upon the above criteria, none of the organizations are considered component units of any of the other organizations.

##### ***Basis of Accounting and Presentation***

NPGA’s activities are accounted for using the economic resources measurement focus and the accrual basis of accounting. NPGA’s accounting records are maintained in accordance with accounting principles generally accepted in the United States of America for regulated utilities and generally follow the Uniform System of Accounts for Public Utilities and Licensees prescribed by the Federal Energy Regulatory Commission (FERC). NPGA prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB). NPGA’s accounting policies also follow GASB Codification Section Re10, *Regulated Operations*, which permits an entity with cost-based rates to defer certain costs or income that would otherwise be recognized when incurred to the extent that the rate-regulated entity is recovering or expects to recover such amounts in rates charged to its customers.

# National Public Gas Agency

## Notes to Financial Statements

March 31, 2022 and 2021

### Note 1: Nature of Operations and Summary of Significant Accounting Policies - Continued

#### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and other changes in net position during the reporting period. Actual results could differ from those estimates.

#### ***Cash Equivalents***

NPGA considers all highly liquid investments with an original maturity of three months or less at the date of purchase to be cash equivalents. NPGA had no cash equivalents at March 31, 2022. At March 31, 2021, cash equivalents consisted of a money market mutual fund.

#### ***Investments and Investment Return***

Investments in money market mutual funds are carried at cost, which approximates fair value. Investments in negotiable certificates of deposit are carried at fair value. Fair value is determined using quoted market prices. Investment return consists of interest, the net change for the year in the fair value of investments, and gains or losses on the sale of investments.

#### ***Accounts Receivable***

Accounts receivable are stated at the amount billed to members and customers. Accounts receivable are ordinarily due 30 days after the issuance of the invoice. Accounts past due more than 120 days are considered delinquent. Delinquent receivables are charged off as they are deemed uncollectible. NPGA does not believe an allowance for doubtful accounts is necessary at March 31, 2022 and 2021, as there were no delinquent accounts.

#### ***Gas in Storage***

Contracts with certain interstate pipeline suppliers include a storage component. Gas in storage consists of natural gas purchased for the benefit of members with contracted storage. The quantity in storage is valued at the weighted-average cost by member.

# National Public Gas Agency

## Notes to Financial Statements

March 31, 2022 and 2021

### Note 1: Nature of Operations and Summary of Significant Accounting Policies - Continued

#### ***Net Position Classification***

Net position is required to be classified into three components – investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

***Investment in capital assets*** - consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. NPGA had no capital assets at March 31, 2022 and 2021.

***Restricted*** - consists of restricted assets and deferred outflows, reduced by liabilities and deferred inflows related to those assets, with constraints placed on their use either by a) external groups such as creditors (such as through debt covenants), contributors, or laws or regulations of other governments or b) law through constitutional provisions or enabling legislation. There are no components of net position at March 31, 2022 and 2021 that meet the restricted definition.

***Unrestricted*** - consists of the assets and deferred outflows, and liabilities and deferred inflows that are not included in the net investment in capital assets or restricted components of net position.

#### ***Classification of Revenues***

Operating revenues include revenues resulting from the purchase and delivery of gas supplies to members and customers. Nonoperating revenues include those derived from capital and related financing, noncapital financing and investing activities other than capital contributions from members.

#### ***Derivative Instruments***

Derivative instruments are utilized by NPGA to manage market risk and reduce exposure resulting from fluctuations in prices of natural gas. These instruments include commodity swap agreements. Additional information regarding these instruments is shown in Note 4.

#### ***Rates and Charges***

NPGA annually determines its wholesale gas supply rates and charges to recover costs of providing natural gas service. Rates and charges for providing wholesale gas supply are reviewed and adopted by NPGA's Board of Directors. The cost of natural gas to NPGA is recovered through NPGA's rates and charges which includes a monthly gas cost adjustment mechanism. Variances between the stated rate for NPGA members and actual costs are recovered from, or returned to, NPGA's members. The transportation costs and charges incurred by NPGA are for certain members and are charged to the individual members.

#### ***Income Taxes***

In accordance with certain provisions of the Internal Revenue Code and the Act and related governing laws and regulations, NPGA, as a local government entity, is exempt from federal and state income taxes.

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 2: Deposits, Investments, and Investment Return**

***Deposits***

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. NPGA's deposit policy for custodial credit risk requires compliance with the provisions of state law. State statutes require banks either to give bond or to pledge government securities to NPGA in the amount of NPGA's deposits. The Federal Deposit Insurance Corporation (FDIC) insures transaction accounts for government deposits up to \$250,000 per official custodian at each covered institution. At March 31, 2022, NPGA's deposits exceeded FDIC insurance and pledged government securities by approximately \$11,000. NPGA's deposits were covered by FDIC insurance and pledged government securities at March 31, 2021.

***Investments***

NPGA's investing is performed in accordance with the investment policy adopted by its Board of Directors and applicable laws of the State of Nebraska. Approved investments are outlined in the investment policy and include bills, notes, bonds or other obligations which as to principal and interest constitute direct obligations of the United States of America (U.S.), municipal bonds, bonds or other obligations which as to principal and interest are guaranteed by the U.S., certain senior obligations issued or guaranteed by noted federal organizations, commercial paper, certificates of deposit and time deposits of any U.S. depository institution or trust company, and certain money market mutual fund accounts. Should investment opportunities arise, that are not listed in the investment policy, investment consent is required through the approval of two of the following: Chair of the Board of Directors, Secretary-Treasurer of the Board of Directors or NPGA Executive Director.

At March 31, 2022 and 2021, NPGA had the following investments, maturities, and credit ratings:

	Carrying Value	Maturities in Years		Credit Rating Moody's/S&P
		Less Than 1	1-5	
<b>March 31, 2022</b>				
Negotiable certificates of deposits	\$ 248,936	\$ 248,936	\$ -	Not rated
	<u>\$ 248,936</u>	<u>\$ 248,936</u>	<u>\$ -</u>	
<b>March 31, 2021</b>				
Money market mutual fund				
- U.S. government obligations	\$ 850,000	\$ 850,000	\$ -	Aaa-mf/AAAm

## Notes to Financial Statements

March 31, 2022 and 2021

### Note 2: Deposits, Investments, and Investment Return - Continued

#### *Investments - Continued*

**Interest Rate Risk** - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. NPGA's investment policy does not place a limit on the amount that may be invested in any one maturity category. NPGA's investment policy limits the investment term to a maximum of two years. The money market mutual funds are presented as an investment with a maturity of less than one year because they are redeemable in full immediately.

**Credit Risk** - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. NPGA's investment policy establishes requirements for certain investment securities or issuers of securities to be rated at certain rates or higher. The following investment types must be rated at the minimum rates noted below:

Commercial paper	A-1, P-1
Municipal bonds	AA-

**Custodial Credit Risk** - For an investment, custodial credit risk is the risk that, in the event of a failure of the counterparty, NPGA would not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. All investments are held in safekeeping in NPGA's name, in a broker account with NPGA's primary financial institution.

**Concentration of Credit Risk** - Concentration of credit risk is the risk associated with the amount of investments NPGA has with any one issuer that exceeds 5% or more of its total investments. Investments issued or explicitly guaranteed by the U.S. government are excluded from this requirement. As of March 31, 2022 and 2021, each of NPGA's investments in negotiable certificates of deposit were covered by FDIC insurance, as the individual investments did not exceed \$250,000, and were therefore also excluded from this requirement. NPGA's investment policy limits the amount of its investment portfolio that may be invested in any one issuer, other than U.S. government securities, to \$500,000.

#### **Summary of Carrying Values**

The carrying values of deposits and investments at March 31, 2022 and 2021, are as follows:

	<b>2022</b>	<b>2021</b>
Deposits	\$ 1,590,035	\$ 1,294,902
Investments	248,936	1,600,418
	<u>\$ 1,838,971</u>	<u>\$ 2,895,320</u>

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 2: Deposits, Investments, and Investment Return - Continued**

***Summary of Carrying Values - Continued***

Included in the following balance sheet captions:

	<b>2022</b>	<b>2021</b>
Cash and cash equivalents	\$ 1,590,035	\$ 2,144,902
Short-term investments	248,936	500,145
Long-term investments	-	250,273
	<b>\$ 1,838,971</b>	<b>\$ 2,895,320</b>

***Investment Return***

Investment return for the years ended March 31, 2022 and 2021 consisted of interest income and the net change in fair value of investments carried at fair value of \$5,653 and \$14,091, respectively.

***Disclosures About Fair Value of Assets and Liabilities***

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

***Level 1*** – Quoted prices in active markets for identical assets or liabilities.

***Level 2*** – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

***Level 3*** – Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

***Investments*** - Money market mutual funds are carried at cost, and thus not included within the fair value hierarchy. NPGA’s investments in negotiable certificates of deposit are measured at fair value on a recurring basis and are classified within Level 2 of the fair value hierarchy at March 31, 2022 and 2021.

***Derivative Instruments*** – The fair values of NPGA’s cash flow hedges are estimated using forward-looking natural gas curves and discounted cash flows that are observable or can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy at March 31, 2022 and 2021.

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 3: Transactions with Coalition Members**

NPGA, NMPP, MEAN and ACE through common members and management comprise a coalition. NPGA shares personnel and facilities within this coalition, as well as enters into agreements for certain products and services.

NPGA incurred expenses of approximately \$440,000 and \$420,000 for administrative services and rents provided by coalition members during 2022 and 2021. A summary of amounts due to coalition members at March 31, 2022 and 2021, is as follows:

	<b>2022</b>	<b>2021</b>
Due to MEAN	\$ 42,085	\$ 35,318
Due to NMPP	869	5,800
Due to coalition members	<u>\$ 42,954</u>	<u>\$ 41,118</u>

**Note 4: Derivative Instruments**

***Objectives and Terms of Derivative Instruments***

NPGA has entered into commodity swaps to hedge changes in cash flows and reduce exposure due to fluctuations in the market price of natural gas. These commodity swaps are considered derivative instruments under the provisions of GASB Codification Section D40, *Derivative Instruments*. The fair values of the commodity swaps are based on forward prices from established indexes for the applicable region and discounted using established interest rate indexes.

*Cash Flow Hedges* - Cash flow hedges are derivative instruments associated with a hedgeable item that significantly reduce an identified financial risk by substantially offsetting changes in cash flows or fair values of the hedgeable item. At March 31, 2022 and 2021, the positive fair value of commodity swaps considered cash flow hedges is classified as a noncurrent asset on the balance sheet, with an offsetting deferred inflow of resources for the same amount. The change in fair value of cash flow hedges was an increase of \$2,811,000 for 2022 and \$262,000 for 2021. The change in fair value is reflected within deferred inflows from derivative instruments in 2022 and 2021.

During 2022 and 2021, NPGA had pay-fixed, receive variable commodity swaps with a national energy corporation. NPGA pays the predetermined fixed price and the counterparty pays the variable price, which is based on the NYMEX natural gas settlement price for the contractual month. As of March 31, 2022 and 2021, the counterparty was rated A- by Standard & Poor's and A3 by Moody's Investors Service.

The fair value of NPGA's derivative instruments at March 31, 2022 and 2021 is \$2,885,000 and \$74,000, respectively.

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 4: Derivative Instruments – Continued**

***Objectives and Terms of Derivative Instruments – Continued***

A summary of objectives and terms of NPGA’s derivative instruments at March 31, 2022 follows:

<b>March 31, 2022</b>				
<b>Notional Amount (# of contracts)</b>	<b>Effective Date</b>	<b>Termination Date</b>	<b>Monthly MMBtu</b>	<b>Fixed Price per MMBtu</b>
<b>Cash Flow Hedges:</b>				
	Monthly starting	Monthly through		
2	5/1/2022	6/1/2022	10,000	\$2.600
2	5/1/2022	6/1/2022	10,000	\$2.575

1	2/1/2023	2/1/2023	4,125	\$4.155
12	3/1/2023	2/1/2024	8,042	\$3.670
12	4/1/2023	3/1/2024	8,444	\$4.135

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 4: Derivative Instruments – Continued**

***Objectives and Terms of Derivative Instruments – Continued***

A summary of objectives and terms of NPGA’s derivative instruments at March 31, 2021, (all contracts are structured with a quantity of 10,000 MMBtu per contract) follows:

March 31, 2021			
Notional Amount (# of contracts)	Effective Date	Termination Date	Fixed Price per MMBtu
<b>Cash Flow Hedges:</b>			
	Monthly starting	Monthly through	
2	5/1/2021	6/30/2021	\$2.650
5	5/1/2021	9/30/2021	\$2.590
8	5/1/2021	12/31/2021	\$2.490
12	7/1/2021	6/30/2022	\$2.600
12	7/1/2021	6/30/2022	\$2.575
12	8/1/2021	7/31/2022	\$2.550
12	8/1/2021	7/31/2022	\$2.540
12	9/1/2021	8/31/2022	\$2.815
12	9/1/2021	8/31/2022	\$2.785
12	10/1/2021	9/30/2022	\$2.785
12	10/1/2021	9/30/2022	\$2.760
12	1/1/2022	12/31/2022	\$2.615

**Credit risk** – At March 31, 2022 and 2021, for the swaps with a positive fair value, NPGA was exposed to credit risk in the amount of the fair value of the swaps. NPGA reduces its exposure to credit risk by requiring the counterparty to maintain credit ratings as defined in contract documents.

**Termination risk** - NPGA or the counterparties may terminate the swaps if either party fails to perform as outlined in the terms of the contracts. If a swap agreement is terminated, each party will make the calculations on its part, and will provide to the other party a statement showing relevant quotations and specifying any amount payable according to the applicable swap agreements.

**Basis risk** - NPGA is exposed to basis risk on the swaps because the variable payments on the commodity swaps are based on the Henry Hub pricing point, which is different than the varying pricing points used by NPGA for its natural gas purchases. The basis difference can vary depending on the geographical location of the pricing point.

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 5: Gas Supply**

Gas supply for the years ended March 31, 2022 and 2021 was as follows:

	<b>2022</b>	<b>2021</b>
Members	\$ 8,268,663	\$ 8,199,178
Customers	501,366	298,953
	\$ 8,770,029	\$ 8,498,131

NPGA has agreements with various parties to provide for the sale of natural gas to the parties under various terms and rate schedules. As of March 31, 2022 and 2021, NPGA had 13 member participants.

**Note 6: Natural Gas Costs and Commitments**

Cost of gas sold for the years ended March 31, 2022 and 2021 was as follows:

	<b>2022</b>	<b>2021</b>
Purchased gas	\$ 9,425,247	\$ 7,746,855
Production	272,304	166,819
Commodity swaps, net	(1,533,203)	56,468
Transportation	119,577	104,546
	\$ 8,283,925	\$ 8,074,688

***Purchased Gas***

NPGA's natural gas requirements are purchased through contracts with various natural gas suppliers. NPGA's contracts with natural gas suppliers provide for the pricing of all natural gas primarily based on nationally publicized indices plus or minus applicable premiums and discounts.

At March 31, 2022, NPGA has contracts with a natural gas supplier to purchase daily volumes, varying by month, from April 1, 2022 through March 31, 2023 at a fixed price per MMBtu. The total contract value is approximately \$614,000.

NPGA has entered into gas supply contracts as part of projects to obtain long-term supplies of natural gas, at a discount, pursuant to prepaid natural gas purchase and sale agreements. NPGA's continued participation in the gas supply contracts through the earlier of the contract term or an early termination date defined per the terms of the agreement, is subject to the ability of the natural gas acquisition authority to supply gas at a minimum discount during each defined reset period.

# National Public Gas Agency

## Notes to Financial Statements

### March 31, 2022 and 2021

#### **Note 6: Natural Gas Costs and Commitments – Continued**

NPGA has a gas supply contract with a joint action agency to purchase a daily contracted quantity of 500 MMBtu at a set discount beginning April 2022 through November 2028. The contract term is the earlier of March 31, 2052 or an early termination date defined per the terms of the agreement. NPGA has a gas supply contract with the same joint action agency to purchase a daily contracted quantity of 500 MMBtu at a set discount from February 2020 through August 2026. The contract term is the earlier of January 31, 2050 or an early termination date defined per the terms of the agreement. During the years ended March 31, 2022 and 2021, NPGA purchased approximately 183,000 MMBtu each year under the agreement. NPGA has a gas supply contract with a natural gas acquisition authority to purchase a daily contracted quantity of 1,000 MMBtu at a set discount from April 2019 through November 2024. The contract term is the earlier of November 30, 2048 or an early termination date defined per the terms of the agreement. During the years ended March 31, 2022 and 2021, NPGA purchased approximately 365,000 MMBtu each year under the agreement.

#### ***Production***

NPGA has entered into a natural gas production sharing agreement with a nonprofit corporation whereby NPGA has agreed to purchase a maximum of approximately 301,000 MMBtu per year for a participation share of 2.89%. The natural gas production sharing agreement obligates NPGA to pay its participation share of all costs incurred by the related gas supply pool until all related debt has been paid and the last volumes have been delivered. Debt is outstanding through 2027. Purchase requirements are subject to production availability. During the years ended March 31, 2022 and 2021, NPGA purchased approximately 69,000 MMBtu and 83,000 MMBtu, respectively.

#### ***Commodity Swaps***

NPGA pays the predetermined fixed price and the counterparty pays the variable price, which is based on the NYMEX natural gas settlement price for the contractual month. The amount included in cost of gas sold represents the net amount of commodity swaps settled.

#### ***Transportation***

NPGA contracts with certain interstate pipeline suppliers for the transportation and storage of its natural gas requirements. NPGA has entered into Asset Management Arrangements (AMA) with natural gas suppliers resulting in payment and consideration for the release of transportation capacity on three interstate pipelines. The terms of the agreements vary by pipeline. Payments received under the AMA are netted against the transportation costs incurred. The transportation costs and charges incurred by NPGA are for certain members and are charged to the individual members. As of March 31, 2022, NPGA has an AMA with a term of April 1, 2022 through October 31, 2022; an AMA with a term of April 1, 2022 through March 31, 2023 with an automatic annual extension unless terminated in accordance with the contract notice provisions; and, an AMA with a term of August 1, 2021 through July 31, 2023.

**National Public Gas Agency**  
**Notes to Financial Statements**  
**March 31, 2022 and 2021**

**Note 6: Natural Gas Costs and Commitments – Continued**

NPGA has contracted to collect payments for transportation of natural gas on behalf of certain members and customers and remits these payments to the respective interstate pipeline supplier. Since NPGA is only acting as an agent, these amounts are not reflected as revenue or expense in the statements of revenues, expenses and changes in net position. The transportation purchased by the members and customers, that NPGA was responsible for collecting and remitting to the respective transportation suppliers, totaled approximately \$1,878,000 and \$1,707,000 during 2022 and 2021, respectively.

**Note 7: Risk Management**

NPGA is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, injuries to employees and others; and natural disasters. NPGA is named as one of the insureds on joint policies for commercial insurance, subject to certain limits and deductibles, to reduce the financial impact for claims arising from such matters. None of the claims submitted against this commercial coverage in any of the three preceding years were specific to or material to NPGA. All such claims were submitted for losses incurred in the normal course of business.

**Note 8: Significant Concentrations**

Information regarding major members and customers is provided for those members and customers who individually exceed 10% of NPGA's annual revenues from gas supply or accounts receivable balances at year-end.

At March 31, 2022, approximately \$1,168,000 or 52% of total accounts receivable were owed by three members. At March 31, 2021, \$2,157,000 or 74% of total accounts receivable were owed by four members.

For the year ended March 31, 2022, two members comprised approximately \$4,411,000 or 50% of total revenues from gas supply. For the year ended March 31, 2021, four members comprised approximately \$5,027,000 or 59% of total revenues from gas supply.
